

**To:** Strategic Partners

**Date:** 17<sup>th</sup> August 2015

**Ref:** Approved TRAC Supplier - 4-15-936-6061-29

To Whom it may Concern,

Cottontech is pleased to confirm that we now are an approved vendor for Dell having complied with their requirements for international trading.

**4159-3660-6129**

TRAC is a free global online due diligence platform for supply and marketing chain compliance developed by TRACE. TRAC captures, assesses and shares baseline due diligence information on organisations and individuals and issues universal ID numbers to approved applicants. A TRAC 12 digit code quickly and cost-effectively establishes a TRAC holder's identity, address, information, and screens the TRAC holder's name against international watch lists. It is free for companies to use for baseline compliance tracking. TRAC holders upload key documents to substantiate the information associated with their code and their profile on the TRAC web portal.

For further details on compliance visit <http://www.traceinternational.org/>
